

KOOLAI PLAYDOUGH

INGREDIENTS

- 1 cup of flour
- 1/4 cup of salt
- 1 teaspoon of Cream of Tartar
- 1 tablespoon of vegetable oil
- 2 Kool-Aid packets
- 3/4 cup of water
- Mix all the ingredients into a bowl and stir them until they are all wet and mixed. Put your bowl into the microwave for 50-60 seconds. Stir the edges of your bowl and then let it sit for a minute to set. With a spatula stir the dough and then scrape it out of the bowl. Add another tablespoon of flour to your table surface and dump the dough onto it. Work the playdough until it is elastic. Total time = 5 Minutes! Marvelous!

GIANT BUBBLES:

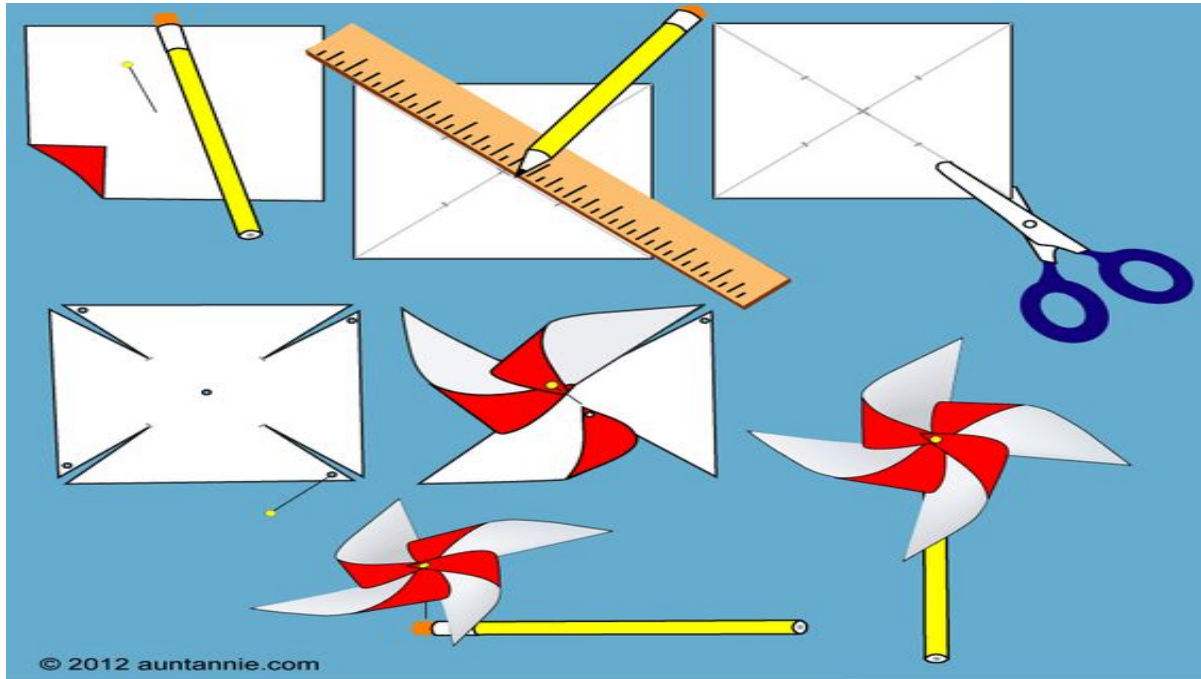

- 6 Cups Water
- 1/2 cup Dish Soap* (Dawn Blue)
- 1/2 cup Cornstarch
- 1 TBSP Baking POWDER
- 1 TBSP Glycerin (found in cake decorating sections)

I used a large dishpan. Slowly mix the ingredients together and avoid getting too many bubbles in it. Then let it sit for 1-3 hours. The cornstarch is a little funny, but somehow it works! Be patient with the solution, it will work and you'll love it. Please note: Bubbles work best on humid or damp days. Dry heat.

BUBBLE WANDS

Use a simple straw and string to be our bubble wands. Just two straws and a length of string tied in a large circle. Hold onto the straws and dip the entire thing in to the bubble solution. Slowly pull it out and blow or move through the air.

PINWHEELS

SENSORY BAG

- Ziploc
- Duct tape
- Gel
- Wiggly eyes
